

Special Issue

Lasers in Oral Sciences

Message from the Guest Editors

The Special Issue “Lasers in Oral Sciences” showcases the latest practical applications of laser technology in everyday dental practice. Our goal is to provide a comprehensive look at how lasers are revolutionizing dental treatments, making procedures more efficient and comfortable for patients compared to traditional approaches. This issue features a range of topics, including, but not limited to, the use of lasers in smile design, prosthetic and esthetic dentistry, laser teeth whitening, periodontal applications, oral surgery, implantology, low-level laser therapy (LLLT), photodynamic therapy, the integration of artificial intelligence (AI) in laser dentistry, etc.

We invite contributions that include thorough literature reviews as well as detailed case reports and series that highlight real-world applications of laser technology. This Special Issue serves as a practical guide for dental professionals, helping them integrate the latest laser technologies and AI advancements into their practice to improve patient outcomes.

About the Journal

Message from the Editor-in-Chief

Oral is an official, peer-reviewed publication from MDPI, which deals with the key issues of oral health and its related fields. It allows for the dissemination of scientific research focused on emerging problems in the fields of dentistry and oral health, providing a forum to promote scientific information. Indeed, the need to face emerging problems, such as the progressive aging of the population and the impact of technological progress on healthcare, represents some pillars on which to build novel therapeutic strategies in the field of dentistry. *Oral* provides a great opportunity to contribute to progress in the field of oral health through the distribution of high-quality articles

Editor-in-Chief

Prof. Dr. Giuseppina Campisi

Department of Rehabilitation, Fragility and Continuity of Care, Unit of Oral Medicine, University Hospital Palermo, 90127 Palermo, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), Scopus and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 23.3 days after submission; acceptance to publication is undertaken in 9.9 days (median values for papers published in this journal in the first half of 2025).
