

## Special Issue

# Advanced Radiographic Techniques in Endodontics

### Message from the Guest Editor

Advanced radiographic techniques have revolutionized modern endodontics, offering high-resolution imaging that enhances diagnostic accuracy, facilitates effective treatment planning, and improves clinical outcomes. This Special Issue invites contributions exploring the latest innovations in radiographic imaging for endodontics, including but not limited to:

- Detection and characterization of periapical pathologies;
- Analysis of complex root canal anatomy;
- Optimization of clinical decision-making and treatment strategies.

A key focus will also be the integration of artificial intelligence (AI) with advanced radiographic techniques, examining its potential to improve diagnostic precision, automate image analysis, and streamline clinical workflows. We welcome original research, comprehensive reviews, and illustrative case studies that demonstrate evidence-based innovations and future directions in radiographic-assisted endodontics.

---

### Guest Editor

Dr. Jörg Philipp Tchorz

Division for Endodontics, Center for Operative Dentistry and Periodontology, Department of Dentistry, Faculty of Medicine and Dentistry, Danube Private University, 3500 Krems, Austria

## About the Journal

### Message from the Editor-in-Chief

*Oral* is an official, peer-reviewed publication from MDPI, which deals with the key issues of oral health and its related fields. It allows for the dissemination of scientific research focused on emerging problems in the fields of dentistry and oral health, providing a forum to promote scientific information. Indeed, the need to face emerging problems, such as the progressive aging of the population and the impact of technological progress on healthcare, represents some pillars on which to build novel therapeutic strategies in the field of dentistry. *Oral* provides a great opportunity to contribute to progress in the field of oral health through the distribution of high-quality articles

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within ESCI (Web of Science), Scopus and other databases.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 23.7 days after submission; acceptance to publication is undertaken in 6.9 days (median values for papers published in this journal in the second half of 2025).
