

Special Issue

Molecular Pathobiology, Diagnosis and Therapeutics in Oral Cancer

Message from the Guest Editors

Oral and oropharyngeal cancers have emerged as significant global and public health challenges. This Special Issue seeks to provide an in-depth and reference-friendly update on the roles of known etiologic/risk factors, current clinical diagnostic tools (including the roles of recently enhanced “liquid biomarkers”), molecular pathogenic mechanisms and diagnostic biomarkers (including recently identified progression indicators), and refined management philosophies for oral cancer patients.

Enthusiastic researchers, academics and clinicians within, but not limited to, the fields of nanotechnology, molecular biology, oncology, therapeutics and diagnostic sciences are invited to submit relevant manuscripts to this Special Issue. We encourage the submission of systematic reviews, bibliometric analyses, comprehensive narrative reviews, clinical trials, clinical epidemiological studies, commentaries, letters to the editor, and other manuscript types. Thank you.

About the Journal

Message from the Editor-in-Chief

Oral is an official, peer-reviewed publication from MDPI, which deals with the key issues of oral health and its related fields. It allows for the dissemination of scientific research focused on emerging problems in the fields of dentistry and oral health, providing a forum to promote scientific information. Indeed, the need to face emerging problems, such as the progressive aging of the population and the impact of technological progress on healthcare, represents some pillars on which to build novel therapeutic strategies in the field of dentistry. *Oral* provides a great opportunity to contribute to progress in the field of oral health through the distribution of high-quality articles

Editor-in-Chief

Prof. Dr. Giuseppina Campisi

Department of Rehabilitation, Fragility and Continuity of Care, Unit of Oral Medicine, University Hospital Palermo, 90127 Palermo, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), Scopus and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 23.3 days after submission; acceptance to publication is undertaken in 9.9 days (median values for papers published in this journal in the first half of 2025).
