

Topical Collection

Synthesis, Testing and Mechanical Behavior of Dental Biomaterials at Different Clinical Parameters

Message from the Collection Editors

This topical collection focuses on the development of synthesis, testing, and evaluation of the mechanical behavior of dental biomaterials at different clinical parameters. The topics of interest include but are not limited to: Indirect materials for prosthetic dentistry; Resin composites and cements for restorative dentistry; Post-endodontic treatment performance; Rehabilitation with endosseous implants; Post-and-core dental treatments; Fractography of contemporary dental materials; Oral trauma prevention and treatment with biomaterials; Clinical and laboratory research of basic and applied performance of dental materials.

About the Journal

Message from the Editor-in-Chief

Oral is an official, peer-reviewed publication from MDPI, which deals with the key issues of oral health and its related fields. It allows for the dissemination of scientific research focused on emerging problems in the fields of dentistry and oral health, providing a forum to promote scientific information. Indeed, the need to face emerging problems, such as the progressive aging of the population and the impact of technological progress on healthcare, represents some pillars on which to build novel therapeutic strategies in the field of dentistry. *Oral* provides a great opportunity to contribute to progress in the field of oral health through the distribution of high-quality articles

Editor-in-Chief

Prof. Dr. Giuseppina Campisi

Department of Rehabilitation, Fragility and Continuity of Care, Unit of Oral Medicine, University Hospital Palermo, 90127 Palermo, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), Scopus and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 31.6 days after submission; acceptance to publication is undertaken in 5.7 days (median values for papers published in this journal in the first half of 2026).
