

## Special Issue

# Selected Papers from the 13th International Conference on New Frontiers in Physics (ICNFP 2024)

### Message from the Guest Editors

This Special Issue will gather works presented at the international conference "New Frontiers in Physics" held in 2024, aiming to promote the interdisciplinarity and cross-fertilization of ideas between different disciplines addressing fundamental physics. The main topics of the Special Issue include particle physics, nuclear physics, heavy ion physics, astroparticle physics and cosmology.

#### Author Benefits

##### High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, CAPIus / SciFinder, and other databases.

##### Journal Rank:

JCR - Q2 (Astronomy and Astrophysics) / CiteScore - Q2 (Nuclear and High Energy Physics)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 23.8 days after submission; acceptance to publication is undertaken in 4.7 days (median values for papers published in this journal in the first half of 2025).
