## Development of Pneumococcal Vaccines for the World

Guest Editor:

**Prof. Dr. Ger Rijkers**

Science and Engineering  
Department, University College  
Roosevelt, 4331 CB Middelburg,  
The Netherlands

Deadline for manuscript  
submissions:

**closed (15 August 2021)**

### Message from the Guest Editor

The issues to be addressed in the field of vaccine development are serotype coverage, serotype replacement, geographical distribution of serotypes, nature of the vaccines (polysaccharide or protein based), as well as (economical) affordability. We therefore invite all clinical and biomedical researchers, whether from this field or coming from a clinical, public health, or manufacturing background, to submit their work to be considered for publication in this Special Issue.

### Prof. Dr. Hinh Ly

Department of Veterinary &  
Biomedical Sciences, University  
of Minnesota, Twin Cities, MN,  
USA

## Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics. *Pathogens* is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*General Immunology and Microbiology*)
