Message from the Collection Editor

We would like to invite you to contribute to a Special Issue on *SARS-CoV Infections*. In this Special Issue we welcome the coronavirus community to submit a research article, review or short communication focused on SARS-CoV emergence, replication, disease pathogenesis and protection, host immune response modulation, structural insights or anti-viral therapeutics.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Hinh Ly

Biomedical Sciences, University
of Minnesota, Twin Cities, MN,
USA

Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics. *Pathogens* is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (Microbiology) / CiteScore - Q1 (Infectious Diseases)
