

# Special Issue

## Updates on Zoonotic Parasites

### Message from the Guest Editors

As of the journal *Pathogens*, I am honored to invite you to submit an article to this Special Issue. Your submission will be given the highest priority for processing and peer review. The aim of this Special Issue is to present articles on the zoonotic agents that can be transmitted between humans and other animal species, including domestic companion animals, livestock and wildlife. Topics of interest include parasites such as helminths, protozoa, and zoonotic arthropods, which are relevant to human and animal health. This Special Issue also aims to provide readers with an overview of the zoonotic agents that can affect the health and well-being of humans and animals.

### Guest Editors

Dr. Alynne da Silva Barbosa

Microbiology and Parasitology Department, Biomedical Institute, Federal Fluminense University, Professor Hernani de Mello Street, 101, São Domingos, Niterói 24210-130, RJ, Brazil

Dr. Maria Regina Reis Amendoeira

Laboratory of Protozoology, Oswaldo Cruz Institute, Oswaldo Cruz Foundation, Pavilhão Carlos Chagas, 208 Room, Brasil Avenue, 4365 Manguinhos, Rio de Janeiro 21040-900, Brazil

### Deadline for manuscript submissions

30 November 2025

## About the Journal

### Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics.

*Pathogens* is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.
