

Special Issue

Reviews of Infectious Diseases

Message from the Guest Editor

The year 2022 marks the 10th anniversary of *Pathogens*. We would like to express our sincerest thanks to our readers, innumerable authors, anonymous peer reviewers, editors, and all the people that have worked for the journal who have made substantial contributions over the years. We are delighted and proud to celebrate this milestone with a series of Special Issues and events. We have launched a Special Issue titled “Reviews of Infectious Diseases”. This is intended to be a collection of high-quality reviews of infectious diseases. We sincerely hope that scholars from all over the world will publish papers based on their recent research.

Guest Editor

Dr. Ceccarelli Giancarlo

About the Journal

Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics.

Pathogens is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

Editor-in-Chief

Prof. Dr. Hinh Ly

Department of Veterinary & Biomedical Sciences, University of Minnesota, Twin Cities, MN, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Infectious Diseases)
