

## Special Issue

# Emerging and Neglected Pathogens in the Balkans

### Message from the Guest Editors

In this Special Issue, we would like to focus on all aspects of emerging and neglected pathogens in the Balkan area. Topics of interest include (but are not limited to) epidemiology, vector competence and ecology, disease pathogenesis, pathogen–host interactions, virulence factors, clinical aspects, immune response, and diagnostic methods. This Special Issue will also highlight the role of a multidisciplinary approach ('One Health') in the surveillance and control of zoonotic diseases.

### Guest Editors

Dr. Ljiljana Žmak

TB department, Croatian Institute of Public Health; School of Medicine, University of Zagreb, 10000 Zagreb, Croatia

Dr. Tatjana Vilibic-Cavlek

1. Croatian Institute of Public Health, 10000 Zagreb, Croatia
2. School of Medicine, University of Zagreb, 10000 Zagreb, Croatia

### Deadline for manuscript submissions

10 December 2025

## About the Journal

### Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics.

*Pathogens* is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Infectious Diseases)
