

## Special Issue

# Rapid Novel Diagnostics for Infectious Disease

### Message from the Guest Editor

Welcome to this Special Issue entitled “Rapid Novel Diagnostics for Infectious Disease”. In the face of evolving pathogens and global health challenges, the field of diagnostic medicine is advancing at an unprecedented pace. This Special Issue seeks to explore the latest innovations and breakthroughs in rapid diagnostics for infectious diseases. From cutting-edge technologies to streamlined point-of-care solutions, this collection of articles aims to provide a comprehensive overview of the current state and future prospects of diagnosing infectious diseases swiftly and accurately. Join us in uncovering the vital role that rapid diagnostics play in the early detection, effective treatment, and containment of infectious outbreaks.

### Guest Editor

Prof. Dr. Valber de Albuquerque Pedrosa  
Institute of Bioscience, UNESP, Botucatu 18618-000, SP, Brazil

### Deadline for manuscript submissions

closed (31 January 2025)

## About the Journal

### Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics.

*Pathogens* is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Infectious Diseases)
