

Special Issue

Mosquito-Borne Viruses

Message from the Guest Editors

The Special Issue entitled "Mosquito-Borne Viruses" aims to present recent research concerning any aspect of mosquito-transmitted viruses and their vectors. All manuscript types are welcome, including reviews, research articles, and short communications. Some focal points include, but are not limited to, the following:

- Mosquito-virus epidemiology;
- Mosquito-virus interaction;
- Mosquito virus detection;
- Mosquito-borne diseases.

Guest Editors

Dr. Fabrizio Montarsi

About the Journal

Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics.

Pathogens is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

Editor-in-Chief

Prof. Dr. Hinh Ly

Department of Veterinary & Biomedical Sciences, University of Minnesota, Twin Cities, MN, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Infectious Diseases)
