Special Issue

Emerging Zoonoses: The Bridge Between Human and Animal Diseases in the One Health Paradigm

Message from the Guest Editors

Pathogens will launch a Special Issue devoted to "Emerging Zoonoses: The Bridge Between Human and Animal Diseases in the One Health Paradigm", with the objective of providing a comprehensive and holistic view of the issues mentioned above. Both original research and review articles are welcomed. Potential topics include, but are not limited to: • Emerging Zoonoses;

- One Health;
- · Epidemiology;
- Diagnostics.

About the Journal

Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics. *Pathogens* is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

Editor-in-Chief

Prof. Dr. Hinh Ly

Department of Veterinary and Biomedical Sciences, College of Veterinary Medicine, University of Minnesota, Saint Paul, MN 55108, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS. and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Infectious Diseases)
