

Special Issue

Hepatitis E Virus (HEV) Infections

Message from the Guest Editor

We invite submission of research and review manuscripts that cover any aspect of the pathogenesis, immunology, epidemiology, diagnosis, treatment and prevention of hepatitis E. I look very forward to your contributions which will give without any doubt a valuable and high ranking edition that will promote further developments in the exciting field of hepatitis E. Thank you for your collaboration. Prof. Dr. C. Thomas Bock

About the Journal

Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics.

Pathogens is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

Editor-in-Chief

Prof. Dr. Hinh Ly

Department of Veterinary & Biomedical Sciences, University of Minnesota, Twin Cities, MN, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Infectious Diseases)
