

Special Issue

Hepatobiliary and Pancreatic Infections

Message from the Guest Editor

This Special Issue will cover the following topics:

- Gallbladder: cholecystitis, empyema, percutaneous drainage, cholecystectomy;
- Bile duct: cholangitis, jaundice, endoscopic biliary drainage, percutaneous biliary drainage, biliary surgery;
- Liver: pyogenic liver abscess, recurrent pyogenic cholangitis, hepatolithiasis, hydatid cyst, amoebic liver abscess, parasitic liver diseases;
- Viral hepatitis and its sequelae including carcinogenesis;
- Pancreas necrosis and infected necrosis: imaging perspectives, endoscopic management, surgical care;
- Infections and immunosuppression: liver transplantation, pancreas transplantation;
- Pathogens implicated in hepatobiliary and pancreatic infections, including COVID-19 illness;
- Cost-analysis, tele-health, innovations, and public health implications related to hepatobiliary and pancreatic infections;
- Impact of COVID-19 on clinical care of hepatobiliary and pancreatic infections;
- Any other relevant topics may be considered.

Guest Editor

Dr. Vishalkumar G. Shelat
YLL School of Medicine, NUS, Kent Ridge, Singapore

About the Journal

Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics.

Pathogens is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

Editor-in-Chief

Prof. Dr. Moriya Tsuji

School of Engineering Medicine, Texas A&M University, 2121 West
Holcombe Blvd., Suite 1007, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Infectious Diseases)
