

Special Issue

Japanese Encephalitis and Rift Valley Fever

Message from the Guest Editors

In this Special Issue, we aim to cover a wide range of topic focusing on RVF or JE infection and epidemiology, and provide (i) new insights on their respective transmission, persistence and spread mechanisms in endemic/enzootic areas (ii) evaluation of the risk and consequences of spread and (iii) potential for endemisation in disease-free areas.

Guest Editors

Dr. Véronique Chevalier

Dr. Philippe Dussart

Dr. Benoit Durand

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics.

Pathogens is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

Editor-in-Chief

Prof. Dr. Hinh Ly

Department of Veterinary & Biomedical Sciences, University of Minnesota, Twin Cities, MN, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Infectious Diseases)
