

Special Issue

Innovative Strategies Against Resistant Bacterial Infections: Bacteriophage Therapy

Message from the Guest Editors

This Special Issue aims to provide a multidisciplinary platform for cutting-edge research and comprehensive reviews focusing on bacteriophage therapy and related phage-based approaches like the use of phage-derived enzymes of phage-antibiotic combinations.

Guest Editors

Dr. Katarzyna Kosznik-Kwaśnicka

Dr. Agnieszka Necel

Dr. Byeonghwa Jeon

Deadline for manuscript submissions

1 September 2026

About the Journal

Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics.

Pathogens is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

Editor-in-Chief

Prof. Dr. Moriya Tsuji

School of Engineering Medicine, Texas A&M University, 2121 West
Holcombe Blvd., Suite 1007, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Infectious Diseases)
