

Special Issue

New Insights into Viral Infections of Domestic Animals

Message from the Guest Editors

We are delighted to invite you to contribute to a Special Issue of *Pathogens*, entitled “New Insights into Viral Infections of Domestic Animals.” This Special Issue aims to bring together groundbreaking research and innovative insights that enhance our understanding and management of these infections, which pose significant challenges to animal health, economic stability, and public health. Topics of interest include, but are not limited to, the following: Epidemiology and surveillance of viral infections; Pathogenesis and host–virus interactions; Advances in diagnostic methodologies; Development and evaluation of vaccines and antiviral therapies; Genetic and molecular characterization of viruses; Zoonotic potential and public health implications; Strategies for prevention and control; Emerging and re-emerging viral infections; Genetic resistance to viral infections.

Guest Editors

Dr. Hugo Ramírez-Álvarez

Virology, Genetics and Molecular Biology Laboratory, Faculty of Higher Education Cuautitlan, Veterinary Medical School, Campus 4, National Autonomous University of Mexico, Cuautitlan Izcalli, Mexico City CP 54714, Mexico

Dr. Ramsés Reina

CSIC-GN-UPNA—Instituto de Agrobiotecnología (IDAB), Pamplona, Spain

Deadline for manuscript submissions

30 September 2025

About the Journal

Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics.

Pathogens is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

Editor-in-Chief

Prof. Dr. Hinh Ly

Department of Veterinary & Biomedical Sciences, University of Minnesota, Twin Cities, MN, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Infectious Diseases)
