

Special Issue

Immune Response to Porcine Epidemic Diarrhea Virus

Message from the Guest Editor

It is my pleasure to invite you to submit an original article or a review article for publication in special issue off:

Pathogens (ISSN 2076-0817) With focus on: “Immune Response to Porcine Epidemic Diarrhea Virus”

www.mdpi.com/journal/pathogens/special_issues/Porcine Both original research and review articles are welcomed. Potential topics include, but are not limited to:

- Characterization immune response to PEDV under experimental or field conditions.
- Algorithms for immune diagnosis.
- Mucosal immunity to PEDV.
- Duration of the immunity against PEDV.
- Innate immune response evasion.
- T cell response to PEDV.
- Inflammatory response to PEDV.
- Update on PEDV mucosal vaccines. Cross-protection.
- Age-related and strain-related factors associated to the immune response to PEDV

About the Journal

Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics.

Pathogens is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

Editor-in-Chief

Prof. Dr. Hinh Ly

Department of Veterinary & Biomedical Sciences, University of Minnesota, Twin Cities, MN, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Infectious Diseases)
