

## Special Issue

# Emerging and Re-emerging Viral Infections: Towards Better Surveillance, Diagnosis, Treatment, and Control

### Message from the Guest Editors

In this Special Issue of *Pathogens*, we invite investigators to submit original research and review articles on the following aspects of emerging and re-emerging viral infections: (i) Discovery of viruses with clear evidence of relevance to human and/or animal health;

(ii) New diagnostics;

(iii) Novel antiviral treatments;

(iv) Vaccines;

(v) Non-pharmaceutical control measures. We look forward to your contributions.

## About the Journal

### Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics.

*Pathogens* is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Infectious Diseases)
