

Special Issue

Resistance, Virulence and Social Behavior as Leading Factors of Microbial Pathogens Fitness

Message from the Guest Editors

For this special issue, both original research and review articles are welcomed. Potential topics include, but are not limited to:

- MDR pathogens;
- Virulence factors, fitness and their influence on bacterial and fungal pathogenesis;
- Biofilms and their tolerance to antimicrobials—means of recovering cell sensitivity;
- Anti-pathogenic strategies;
- *In vitro* and *in vivo* evaluation of novel antibacterial and anti-biofilm agents.

Guest Editors

Prof. Dr. Veronica Lazar

About the Journal

Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics.

Pathogens is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

Editor-in-Chief

Prof. Dr. Hinh Ly

Department of Veterinary & Biomedical Sciences, University of Minnesota, Twin Cities, MN, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Infectious Diseases)
