

Special Issue

Staphylococcus Infections in Humans and Animals

Message from the Guest Editor

In this Special Issue, we aim to assemble a collection of research articles, reviews and case reports that highlight the critical advancements in our understanding of *Staphylococcus* infection in both humans and animals. At this purpose, we cordially invite you to submit articles related to the various aspects of *Staphylococcus* infections in humans and animals: epidemiology, bacteria-host interactions, bacterial pathogenesis, diagnostic procedures, therapies, and preventions.

Guest Editor

Dr. Jilei Zhang

Division of Gastroenterology and Hepatology, Department of Medicine,
University of Illinois at Chicago, Chicago, IL, USA

Deadline for manuscript submissions

closed (15 September 2023)

About the Journal

Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics.

Pathogens is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

Editor-in-Chief

Prof. Dr. Hinh Ly

Department of Veterinary & Biomedical Sciences, University of Minnesota, Twin Cities, MN, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Infectious Diseases)
