

Special Issue

New Insights into Virulence Strategies of Pathogenic Bacteria

Message from the Guest Editors

This Special Issue aims to foster a comprehensive understanding of bacterial pathogenesis by gathering research on diverse pathogenic bacteria. Researchers from various disciplines, including microbiology, immunology, infectious diseases, and clinical research, are encouraged to submit their original research papers, clinical data, meta-analyses, and review articles to this Special Issue of *Pathogens*. Together, let us advance our knowledge of bacterial virulence strategies and develop innovative solutions to combat bacterial infections. We look forward to receiving your contributions.

Guest Editors

Dr. Ankur Bothra

National Institute of Allergy and Infectious Diseases (NIAID), Bethesda, MD 20892, USA

Prof. Dr. Laurence G. Rahme

1. Microbiology and Immunobiology, Harvard Medical School, 340 Thier Research Building, 50 Blossom Street, Boston, MA 02114, USA
2. Director of the MGH Molecular Surgical Laboratory, Center for Surgery, Innovation and Bioengineering, Massachusetts General Hospital, 340 Thier Research Building, 50 Blossom Street, Boston, MA 02114, USA

Deadline for manuscript submissions

20 September 2025

About the Journal

Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics.

Pathogens is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

Editor-in-Chief

Prof. Dr. Hinh Ly

Department of Veterinary & Biomedical Sciences, University of Minnesota, Twin Cities, MN, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Infectious Diseases)
