

# Special Issue

## Zoonotic Parasitoses

### Message from the Guest Editors

The purpose of this Special Issue is to call for different types of articles (original research manuscripts, short communications, reviews, case reports, methodologies) dealing with etiology, epidemiology, clinical signs, diagnosis, therapy and prevention of zoonotic parasitoses. Its main quality is its proposal to comprehend the diversities and pluralities of research topics surrounding parasitic zoonoses.

### Guest Editors

Prof. Dr. Roberto Amerigo Papini

Dr. Hans-Peter Fuehrer

Prof. Dr. Annunziata Giangaspero

Dr. Alessandra Barlaam

### Deadline for manuscript submissions

closed (15 December 2021)

## About the Journal

### Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics.

*Pathogens* is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Infectious Diseases)
