

Special Issue

Acute Rheumatic Fever and Rheumatic Heart Disease: Recent Advances

Message from the Guest Editors

This issue invites original research, study protocols or perspective pieces which:

- provides new insights into Group A streptococcus epidemiology, transmission, host response or therapeutics
- describes clinical approaches to the diagnosis and management of acute rheumatic fever and rheumatic heart disease
- reports operational or implementation research which addresses policy-practice or knowledge translation gaps relevant to acute rheumatic fever or rheumatic heart disease

This will build on current international momentum to reduce rates of rheumatic heart disease. We invite you to consider submitting your research for inclusion in this peer-reviewed special issue.

Guest Editors

Prof. Dr. Anna Ralph

BMedSci, MBBS (Hons1), MPH, DTMH, FRACP, PhD

1. Division Leader, Global and Tropical Health, Menzies School of Health
2. Staff Specialist in Infectious Diseases and General Medicine, Royal Darwin Hospital
3. Co-Director, RHD Australia

Prof. Dr. Laurens Manning

BSc MBChB (Otago), DTM&H (London), FRACP, PhD

1. Program Lead, Penicillin Program, Telethon Kids Institute, Perth, WA, USA
2. University of Western Australia, USA
3. Department of Infectious Diseases, Fiona Stanley Hospital, WA, USA

About the Journal

Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics.

Pathogens is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

Editor-in-Chief

Prof. Dr. Moriya Tsuji

School of Engineering Medicine, Texas A&M University, 2121 West
Holcombe Blvd., Suite 1007, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Infectious Diseases)
