Message from the Collection Editor

We would like to invite you to share with our medical and pediatric community your findings and interpretations stemming from the world that COVID-19 has plunged us into.

Papers focused on how pediatric practice has been changed by the pandemic, what we have “discovered” may be further changed, what we realize we may consider no more a “must” and comparisons thereof are invited, as well as papers on how technology has helped us to deal with patients with rare diseases or complex care needs. Extraordinary times lead to extraordinary measures, and bright minds discover new ways to achieve what can no longer be achieved through established means. It is our pleasure to invite you to share all your new discoveries of “untrodden paths” in the field of healthcare with our readers.

Moro, 70121 Bari, Italy

Message from the Editor-in-Chief

Pediatric Reports is a publishing platform for all topics concerning pediatrics, from basic research to bedside care. We aim at targeting a composite audience, from experienced pediatricians to young residents and fellows. Contributions coming from different geographic areas may witness what happens in the pediatric field. Clinical observation of unusual cases will find its tribune, as well as trial reports and results of research related to diseases, which may represent frequent or rare events faced by Pediatricians. Rapid turnaround time will offer the opportunity to make immediately available, on a fully openaccess basis, the results described in the paper, to the entire community. We look forward to continuing the work done in the past years by *Pediatric Reports*, but also to making the journal grow according to changing expectations and attitudes of both clinicians and researchers who work for a more effective pediatric care.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 31.7 days after submission; acceptance to publication is undertaken in 4.9 days (median values for papers published in this journal in the second half of 2025).
