

## Special Issue

# Modern Solutions for Diagnosis and Treatment Planning in Pediatric Dentistry and Orthodontics

### Message from the Guest Editors

This Special Issue aims to explore the latest advancements, challenges, and future perspectives surrounding the integration of modern technologies in pediatric dentistry. We invite submissions that address a diverse range of topics related to current trends in pediatric dentistry, including, but not limited to:

- *Minimally Invasive Pediatric Dentistry*
- *Pain Management and Sedation Techniques*
- *Early Orthodontic Intervention*
- *Behavior Guidance and Management*
- *Preventive and Educational Programs*
- *Interdisciplinary Care in Pediatric Dentistry*

Collaborative approaches involving pediatric dentists, orthodontists, and other specialists..

## About the Journal

### Message from the Editor-in-Chief

*Pediatric Reports* is a publishing platform for all topics concerning pediatrics, from basic research to bedside care. We aim at targeting a composite audience, from experienced pediatricians to young residents and fellows. Contributions coming from different geographic areas may witness what happens in the pediatric field. Clinical observation of unusual cases will find its tribune, as well as trial reports and results of research related to diseases, which may represent frequent or rare events faced by Pediatricians. Rapid turnaround time will offer the opportunity to make immediately available, on a fully openaccess basis, the results described in the paper, to the entire community. We look forward to continuing the work done in the past years by *Pediatric Reports*, but also to making the journal grow according to changing expectations and attitudes of both clinicians and researchers who work for a more effective pediatric care.
