

## Special Issue

# Feature Papers in Pediatric Reports

### Message from the Guest Editor

This is a collection of top-quality papers published free of charge in open access form by Editorial Board members, or those invited by the Editorial Office and the Editor-in-Chief. The papers should be long research papers (or review papers) with a full and detailed summary of the author's own work carried out so far.

## About the Journal

### Message from the Editor-in-Chief

*Pediatric Reports* is a publishing platform for all topics concerning pediatrics, from basic research to bedside care. We aim at targeting a composite audience, from experienced pediatricians to young residents and fellows. Contributions coming from different geographic areas may witness what happens in the pediatric field. Clinical observation of unusual cases will find its tribune, as well as trial reports and results of research related to diseases, which may represent frequent or rare events faced by Pediatricians. Rapid turnaround time will offer the opportunity to make immediately available, on a fully openaccess basis, the results described in the paper, to the entire community. We look forward to continuing the work done in the past years by *Pediatric Reports*, but also to making the journal grow according to changing expectations and attitudes of both clinicians and researchers who work for a more effective pediatric care.
