Deadline for manuscript
submissions:

closed (30 September 2022)

Message from the Guest Editor

Dear Colleagues,

Plants have always been considered as a source of molecules useful for humans and still are helpful in the discovery of new therapeutic agents. To date, a wide variety of extracts and/or natural compounds isolated from plants have been extensively evaluated against infections caused by viruses that can affect human health. Due to the emergence of drug-resistance or lack of vaccines, the search for new antiviral agents is needed. Authors are invited to submit original research articles, reviews, and short communications exploring recent advances in this field ranging from basic science to clinical studies. Topics include but are not limited to in vitro and in vivo evaluation of antiviral activities of plant extracts or compounds isolated from natural sources.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Pharmacology & Pharmacy*) / CiteScore - Q2 (*Pharmaceutical Science*)
