Message from the Guest Editors

For many years, hydrogels have been the cornerstone of countless biomedical research. Hydrogels consist of various tunable parameters, such as loading efficacy, stimuli responsiveness, hydrophobicity, and swelling properties, which make hydrogels typically applicable to most biomedical research. Today, there is a trend towards utilizing hydrogels as an interdisciplinary bridge across various biomedical fields including: pharmaceutical drug delivery, clinical therapies, surgeries, cosmetics, marketed products, and much more.

This Special Issue rides on this trend to highlight a myriad of novel hydrogels specifically tuned for biomedical applications. We invite both reviews and original articles that shed light on past challenges via the use of natural and/or synthetic hydrogels. Topics may include hydrogels as drug carriers, targeting moieties, regulatory platforms or enhancement of past therapies as well as tissue engineering and regenerative medicine. Any research that addresses our topic “Hydrogels for Biomedical Applications” is welcomed.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Pharmacology & Pharmacy*) / CiteScore - Q2 (*Pharmaceutical Science*)
