Message from the Guest Editors

Nature has represented for millennia the main source of unique bioactive substances, significantly contributing to the treatment of a large number of diseases. Not surprisingly, pharmaceutical research has been largely inspired by nature, accomplishing big efforts to develop new pharmacological agents based or derived from natural products (NPs). Indeed, the rich polypharmacological profile of NPs offers an interesting instrument for developing innovative treatments for complex diseases, such as neurological disorders (NDs).

The journal *Pharmaceuticals* invites experts in the field to contribute to this Special Issue with both reviews and original research articles focusing on exploiting natural products to develop innovative pharmaceutical tools for neurological disorders.

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.
