Message from the Guest Editors

Dear Colleagues,

Historically, natural products (NPs) have been used as remedies for many diseases and illnesses. Even today, with their high structural, physicochemical diversity and health benefits, NPs are suitable for use not only as therapeutic agents but also as cosmetics and food. This Special Issue aims to discuss all the new aspects related to NPs with pharmaceutical applications.

The topics of the Special Issue include but are not limited to in vitro and in vivo evaluation of the biological activities, bioavailability, investigation of the mechanisms of action and pharmaceutical formulations of characterized herbal extracts, pure isolated compounds and/or semisynthetic derivatives. Authors are invited to submit original research articles, reviews, and short communications exploring the recent advances in this field.

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.
