Special Issue

Anticancer Compounds in Medicinal Plants—4th Edition

Message from the Guest Editors

Cancer, in its multiple forms, is presently one of the leading causes of death in both developing and developed countries, and it has become a major health problem and a burden on most public health care systems worldwide. Although several decades of drug discovery and development have provided a number of useful chemotherapeutic agents, there is a continuous interest in the search for new chemical entities with improved anticancer effectiveness and safety.

For this Special Issue, "Anticancer Compounds in Medicinal Plants—4th Edition", we invite researchers to contribute original research or review articles related to natural compounds with anticancer properties isolated from medicinal plants. Contributions can include the discovery of new compounds, in vitro and in vivo assessments of the anticancer properties of medicinal plant-derived compounds, the elucidation of their mechanisms of action, and the design of derivatives with improved efficacy.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals*.

We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
