Pharmacotherapy of Inflammatory Bowel Disease

Message from the Guest Editor

Successful treatment of Inflammatory Bowel Diseases (IBD) is characterised by two challenges: The wide range of miscellaneous clinical manifestations requiring individual therapeutic strategies and the permanent advent of novel therapeutic compounds. On grounds of ongoing scientific work in the pathogenesis of IBD, development of pharmacological immune modulation became a predominant target of research groups and the pharmaceutical industry. Starting with classic immunosuppression the development of antibodies, oligonucleotides and recently also small molecules has substantially extended the range of pharmaceuticals for IBD. In addition, traditional drugs have gained new insights which make these products still valuable remedies for our daily clinical work. The aim of this Special Issue is to offer to our readers short but comprehensive and updated reviews on the conservative management of many manifestations of IBD.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us. We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
