

Special Issue

Bioactive Compounds from Plants and Their Therapeutic Applications in Lifestyle-Related Diseases, 2nd Edition

Message from the Guest Editor

This Special Issue, titled “Bioactive Compounds from Plants and Their Therapeutic Applications in Lifestyle-Related Diseases”, aims to gather both original articles and comprehensive reviews that elucidate the pharmacological actions of plant-derived compounds through studies using cell lines, animal models, and clinical trials. Submitted manuscripts should focus on the wide range of diseases related to lifestyle, such as obesity, diabetes, atherosclerosis, hepatic steatosis, dementia, and mental health disorders. Papers reporting medicinal properties with new molecular mechanisms are welcome. Authors are encouraged to submit research on both single components and mixtures, provided they include comprehensive chemical characterization. We believe that contributions to this Special Issue will advance the treatment and prevention of lifestyle-related diseases and ultimately benefit patient health. We look forward to receiving your submission.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us. We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
