Special Issue

Neurodegenerative Disorders: Computer – Aided Drug Design, Experimental Approaches and Mechanisms

Message from the Guest Editors

The global impact of neurodegenerative disorders increases every year. Therefore, the need for novel drugs, therapies and prevention is urgent. This Special Issue aims to focus on the application of all available and novel methods, analyses and approaches, including in silico, in vitro, in vivo, ex vivo, etc., in the field of neurodegenerative diseases. We welcome original articles and reviews applying these methods for the identification and development of promising drug candidates, as well as for any intimate mechanism of action or new hypothesis in the battle with neurodegenerative disorders.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.
