

Special Issue

Neuropsychiatric Disorders: Pharmacological Aspects

Message from the Guest Editor

As the of *Pharmaceuticals*, I am happy to invite you to contribute to this Special Issue, aimed at gathering relevant and good-quality scientific information, and facilitating communication between experts in the fields of neuropsychiatry, neurophysiology and pharmacology concerning innovative therapeutical measures in neuropsychiatric disorders. The interest of the current Special Issue is mainly focused on neuropsychiatry, but we also encourage interdisciplinary approaches, as well as fundamental research, with both animal studies and patient studies being welcome. The pharmacological aspects and inter-relations between pathological mechanisms and drug response could address any neuropsychiatric disorder, as defined by the DSM-V, and any known comorbidities, including cardiovascular disorders, coagulopathies and gastrointestinal disorders (including, but not limited to microbiome–gut–brain axis impairments). We invite authors to contribute original research papers and reviews.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us. We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
