

Special Issue

Natural Products in Health Promotion and Disease Prevention 2025

Message from the Guest Editors

This Special Issue aims to explore the intersection between natural products and pharmaceutical science, highlighting recent discoveries and innovations. Natural products, encompassing a wide range of biological substances, have been used for health enhancement and disease treatment since ancient times. With the advancement of modern science, these products are being reevaluated, offering therapeutic benefits. This Special Issue seeks to gather research on the efficacy, safety, mechanisms of action and therapeutic potential of natural products. We are particularly interested in studies addressing the following themes: identification and characterization of new bioactive compounds; molecular mechanisms by which natural products influence health and disease; clinical studies testing the efficacy and safety of natural products; synergies between different natural compounds; and the regulatory and ethical implications of using natural products as nutraceuticals. This Special Issue is expected to provide a comprehensive and up-to-date overview of advancements in natural product research, encouraging discussion and collaboration among scientists, health professionals and policy-makers.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us. We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
