

Special Issue

Targeting Bacterial Metabolism with Natural and Synthetic Inhibitors

Message from the Guest Editors

This Special Issue focuses on inhibitors that target bacterial metabolism and are used to explore the metabolic pathways of prokaryotic cells. We aim to analyze natural and synthetic compounds that target the same metabolic pathway via comparative studies. The increasing prevalence of multi-drug resistant bacterial strains has intensified research efforts into finding new inhibitors to manage human infections, especially in treating nosocomial infections, which particularly affect immunosuppressed individuals. It is particularly pertinent to explore other suitable targets, such as enzymes involved in different metabolic pathways. In this Special Issue, we seek research articles and reviews that present innovative findings that advance our knowledge of inhibitors of bacterial metabolism.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us. We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
