

Special Issue

Bioactive Substances, Oxidative Stress, and Inflammation, 2nd Edition

Message from the Guest Editors

Chronic inflammation generates reactive oxygen species (ROS) that contribute to the pathogenesis of chronic non-communicable diseases (cancer, cardiovascular diseases, autoimmune diseases, and metabolic syndrome, among others). Bioactive compounds, including polyphenols, vitamins, omega-3 fatty acids, organic acids, nucleosides and nucleotides, and phytosterols, have attracted great attention due to their role in preventing and even treating pathologies involving oxidative stress and inflammation. The aim of this issue is to increase knowledge on how bioactive compounds can ameliorate inflammation and oxidative stress. Authors are invited to submit original articles, reviews, systematic reviews, or meta-analyses for the identification of bioactive compounds with biological or clinical relevance in the processes of inflammation and oxidative stress in chronic non-communicable diseases.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us. We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
