## Therapeutic Effects of Natural Products and Their Clinical Research

## Message from the Guest Editor

Natural products, typically derived from plants, animals, and microorganisms, have long been recognized for their therapeutic potential. Natural compounds play a significant role in traditional medicine and are the basis of modern pharmaceuticals. Natural products are a valuable source of novel drug candidates, with numerous active compounds isolated and synthesized for various medical applications. Natural products also contribute to complementary and alternative medicine. as many individuals turn to herbal remedies for health and well-being. In recent years, clinical research has delved into the mechanisms of action of natural products, their safety, and efficacy. The therapeutic effects of natural products continue to offer promising avenues for improving healthcare and well-being. The scope for natural products in clinical research is vast and continues to expand as our understanding of these compounds increases. This Special Issue aims to explore a wide range of natural products covering their potential benefits in human health through to their applied clinical effects.

## **About the Journal**

## Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

#### Editor-in-Chief

#### Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Cièncias, Universidade de Lisboa, Lisboa, Portugal

#### **Author Benefits**

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
