Advances in Topical and Mucosal Drug Delivery Systems

Message from the Guest Editor

This Special Issue aims to showcase the latest innovations in topical and mucosal drug delivery systems, covering formulation design, novel materials, and targeted delivery strategies. Emerging areas such as micro/nano-particulate delivery, microneedles, and stimuli-responsive gels are revolutionizing topical and mucosal therapeutics. These advancements offer the potential for controlled release, enhanced penetration, and improved therapeutic outcomes. We invite original research articles, reviews, and short communications detailing novel approaches to topical and mucosal drug delivery.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us. We hope to handle your contribution to *Pharmaceuticals* soon.
