

Special Issue

Exploring Natural Products with Antioxidant and Anticancer Properties

Message from the Guest Editors

Cancer remains the second foremost global cause of mortality. It is estimated that by 2030 cancer would lead to almost 13 million deaths worldwide. Moreover, cancer therapies are constrained by the emergence of drug resistance and other associated challenges.

Undoubtedly, there is a need for new drugs which might involve combinations with natural compounds for better outcomes. Since oxidation has been implicated in the progression and development of cancer, antioxidants have been suggested as one of the viable solutions in the treatment of cancer. This is because antioxidants play significant roles in the preservation of cellular integrity, and therefore, a crucial role in sustaining the homeostasis of the host immune system. In this Special Issue, we welcome submissions of well-designed studies, relying on scientific methods and statistical analysis, that explore natural products—be it from plants, fungus, animals or other sources—which possess anticancer and antioxidant properties.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
