

Special Issue

Discovery and Biochemical Profiling of Marine Drugs

Message from the Guest Editors

We are pleased to invite you to contribute to our Special Issue of *Pharmaceuticals* journal, entitled “Discovery and Biochemical Profiling of Marine Drugs”.

This Special Issue will feature a selection of recent research topics and current review articles, reporting the latest updates on the discovery and profiling of new classes of biocompounds from marine organisms used to create novel marine medicines or pharmaceuticals, nutraceuticals, and cosmetics for health. There are many interesting research directions for obtaining marine drugs and to benefit from biocompound resources for the pharmaceutical and medical fields such as collagen, gelatin, collagen peptides, and amino acids from marine organisms. It is important to note that although marine organisms offer many potential benefits for new marine medicines, further research and development is needed to fully understand their mechanisms of action and to optimise their use in pharmaceuticals, cosmeceuticals, and nutraceuticals.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us. We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
