Advancements in the Study of Biological Activities of Plant Extracts and Components

Message from the Guest Editors

The application of plant extracts and their constituents has been acknowledged in relation to various disorders since ancient times. Advancements in analytical technologies have led to the discovery of many new bioactive compounds that exhibit a diverse spectrum of biological activities, such as antioxidant, antidiabetic, anti-inflammatory, and anticancer properties.

Research has further enhanced our understanding by elucidating the molecular mechanisms via which these plants and their compounds exert their effects, as well as pinpointing the specific pathways and targets involved. Similarly, the combined action of these plants demonstrates their function in improving medicinal applications.

Taken together, these advancements in plant extracts and their compounds are valuable resources in the ongoing search for new drugs and treatments. We have organized this Special Issue to gather original research and reviews that demonstrate the progress of plant extracts and their bioactive compounds in the treatment of various diseases.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
