Medicinal Plants: A Natural Approach to Inflammatory Diseases and Conditions Related to Oxidative Stress

Message from the Guest Editors

We are running a Special Issue titled “Medicinal Plants: A Natural Approach to Inflammatory Diseases and Conditions Related to Oxidative Stress” (ISSN: 1424-8247). Our Special Issue focuses on encouraging the submission of original studies, reviews, and systematic reviews, with the objective of unveiling the mechanisms of action of medicinal plants and the wide variety of bioactive compounds in inflammatory diseases related to oxidative stress. Furthermore, studies related to toxicity and side effects are welcome. Since the diseases mentioned above are growing exponentially worldwide and cause a significant reduction in quality of life, it is imperative and challenging to find or develop new therapeutic strategies that can be used as adjuvants in treatment or even replace treatments. Furthermore, existing medications are usually of high cost, and patients can often be irresponsive, in addition to inducing the manifestation of numerous adverse effects. Therefore, this Special Issue can significantly contribute to delineating new approaches to inflammatory diseases and diseases related to oxidative stress

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
