Artificial Intelligence Applied to Medicinal Chemistry and Structural Biology

Message from the Guest Editor

The usage of artificial intelligence (AI) has been increasing in several sectors of society. Particularly in drug design endeavors, it has been successfully applied in several areas. Moreover, in structural biology research, AI has been used in fields such as molecular simulations, protein engineering, and quantum enzymology. It is well known that in medicinal chemistry and structural biology, an important task is the analysis and processing of the multivariable chemical and biological spaces that are organized in huge databases. To celebrate the success story and the advances on the applications of AI in Medicinal Chemistry and Structural Biology, I invite fellow scientists to submit original papers or reviews, which will be published as a Special Issue on “Artificial Intelligence Applied to Medicinal Chemistry and Structural Biology”. We look forward to your contribution.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us. We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
