

Special Issue

Anticancer Drugs

Message from the Guest Editors

The journal *Pharmaceuticals* now invites you to contribute review or original research articles covering the different facets of anticancer drug research, which will be published as a Special Issue on “Anticancer Drugs”. The focus of this Special Issue is on the design, synthesis and molecular mechanism of action of novel antitumor drugs and on the relationship between the chemical structure and the biochemical reactivity of the molecules. This issue will also provide an understanding of the biologic and genotypic context in which targets are selected for oncology drug discovery thus allowing rationalization of the activity of these drugs and guiding the design of more effective agents. About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief
