## Metal-Based Nanoparticles' Biological Activity and Pharmaceutical Applications, 2nd Edition

### Message from the Guest Editors

Nanoparticles have been the subject of numerous studies because of their specific physicochemical characteristics, which make them suitable for introduction and application in living systems. The ability of metal nanoparticles to interact with cells, as well as their structures and cellular metabolites, is of particular importance in their applications as drug carriers, and in the diagnosis and treatment of various diseases. The properties of nanoparticles depend strongly on their shape, size and material. Let us dive into the metal nanoworld! I look forward to your valuable contributions to the biological activities and applications of metal nanoparticles, their combinations with natural or synthetic substances or their applications as drugs and diagnostic tools.

---

### Guest Editors

Dr. Elitsa L. Pavlova

Biophysics and Medical Physics Group, Optics and Spectroscopy Department, Faculty of Physics, Sofia University "St. Kliment Ohridski", 5 James Bourchier Blvd., 1164 Sofia, Bulgaria

Prof. Dr. Debbie C. Crans

Department of Chemistry, Colorado State University, Fort Collins, CO 80523, USA

# About the Journal

## Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

*Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

---

## Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

## Author Benefits

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
