Special Issue

Antiplatelet Therapy in Inflammatory Diseases

Message from the Guest Editor

As atherosclerosis is more and more regarded an inflammatory diseases, treatment concepts have to be revisited.

The cornerstone in the management of atherosclerotic diseases is antiplatelet therapy, which impacts not only platelet signaling, but also exhibits pleiotropic side effects. This Special Issue is open for manuscripts focussing on antiplatelet therapy in atherosclerosis and other inflammatory diseases and especially also welcomes papers investigating pathways of innate immunity, immunothrombosis and platelet inhibition.

About the Journal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*. *Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Cièncias, Universidade de Lisboa, Lisboa, Portugal

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
